

Simple and Intuitive

LAOT AIMING MARK TYPE 341

The LAOT Aiming Mark is a small and convenient attachment to both the MSI Large Area Optical Target Type 340 and Optical Target Type 546.

Designed for easy use, this simple device is easily added to the target, and can sport a variety of target shapes, with a white disc being the most common.

Smart and affordable, the LAOT Aiming Mark is a helpful addition to any range.

SMALL AND CONVENIENT

HARDWARE/SOFTWARE

- **Swinging Actuator** moves the extender metal rod into or out of the target area under computer control.
- **A variety of aiming point indicators** can be attached to the actuator. The most common is a white disc with a set of cross hairs.
- **LAOT-powered supply.**
- **Remote Control** from the Range Processor controlling LAOT.
- **Automatic Control Software** disables when the aiming point is raised.
